

TOP SECRET INTEL SHEET

Why Use a Bank?

- A bank is a safe place to keep your money so it doesn't get lost or stolen.

Types of Bank Accounts

- Savings accounts – where money grows with interest
- Current accounts – for daily spending

Saving vs. Spending

- Saving some money instead of spending it all lets you have more money in the future. Spend some, save some!

How Interest Helps You

- The longer you keep your money in the bank, the more interest it earns, helping your savings grow.

Interest

- The bank rewards you with extra money, called interest, for keeping your money safe there
